

# Eaton Green Playground

Help Eaton Village Residents' Association turn our dream of an updated playpark, with new facilities, into a reality!

EVRA  
extend their  
thanks to  
Leaders for  
sponsoring this  
promotion

Eaton Village Residents' Association are working towards updating the Eaton Green Playground to create a new, exciting and fun play area for children of all ages which would also include a shaded seating area for picnics and for meeting up. Our vision is that Eaton Green will be a family friendly environment that encourages physical activity for children, helps strengthen community links and makes better use of a currently under-utilised space in the village. The image above shows some ideas of how the area could be developed.

Many of you replied to our playground survey giving support to our project and telling us what sort of facilities you would like to see. The children of Eaton Primary School helped us turn your responses into a wish list of facilities which

was then used to seek indicative solutions and costs from suppliers. We know that we need to raise around £62,000 to deliver a playground which will offer a range of new facilities and to cover the overall cost of planning, supply and installation of equipment and new fencing.

We are working with the City Council (owners of the site) who have pledged a significant contribution to the project using money received from levies on developers (Section 106 and CIL funds). We are busy writing our submissions for the various funding bodies and will shortly submit our applications. We are confident that we will be able to raise further amounts through applications for grants.

**But we also need your help to make this a reality!  
Please see overleaf to make your pledge of support...**
