

Eaton Village Residents' Association presents:

A talk on Arminghall Henge at Eaton Vale

Dr Andrew Hutcheson will talk about the dig he led in 2022 and the prehistoric discoveries found.

Above is an artist's impression of a wooden henge similar to Arminghall. At Arminghall the distance across the centre from one bank to the other was 81 metres and the posts would have stood about 7 metres high. The whole structure being almost as large as Stonehenge.
