Interval for refreshments followed by discussion on the Norfolk Net Zero Project:

Eaton is one of seven Norfolk communities selected to participate in the project. The focus of the Project is supporting people to increase energy efficiency, install renewable heat and power, and move to lower-carbon modes of transport. We will hear from two Eaton residents who have moved from gas heating systems to electric and their experiences of this. We would also like to hear from Residents on what you see as the barriers to you adopting such systems for feedback to the Norfolk Net Zero Project Team.
